

Find your path through the NGSS*

Find your path through the Next Generation Science Standards*.

1. Start in the center with a core idea. What do you teach?
2. Add a scientific and engineering practice—or two!
3. Add a crosscutting concept.
4. You've created one path through the NGSS. Learn about Concord Consortium resources available for that path at concord.org/ngss

Discover a new approach to teaching with the NGSS.

The Next Generation Science Standards provide a framework and examples for STEM learning. Grounded in the National Academy of Science's thoughtful Framework for K–12 Science Education, these new K–12 science standards have been developed to provide students an internationally benchmarked science education, and signify a new direction for STEM education.

Practices

Core Ideas

Crosscutting Concepts
