

Engineering Energy Efficiency: A Solar House Project

Table of Contents

Chapter 1: Build and Test a Standard House

Chapter 2: The Science of Heat Transfer – Hands-on Version

- 2.0) Introduction
- 2.1) Thermal energy/Heat storage
- 2.2) Conduction
- 2.3) Convection
- 2.4) Radiation
- 2.5) Energy from the sun

Chapter 2: The Science of Heat Transfer – Energy2D Simulation Version

- 2.0) Introduction
- 2.1) Thermal energy/Heat storage
- 2.2) Conduction
- 2.3) Convection
- 2.4) Radiation
- 2.5) Energy from the sun
- 2.6) Energy detective

Chapter 3: Design and Build a Solar House – Pencil and Paper Version

Chapter 3: Design and Build a Solar House – Energy3D Version

Chapter 4: Modify Your Solar House

Chapter 5: Solar House Project Summary
